## BLIND KICKBALL

### TOURNAMENT FUNDRAISER

## What is Blind Kickball?

Blind Kickball is played with 2 teams of 5 people each. Each member of the teams are blind-folded. The kicker places the beeping ball, kicks and then must run to the base that is beeping. There are two bases that beep at random. The runner must reach the base before the ball is caught or stopped. If the runner does not reach the base before the ball is caught or stopped, that counts as one out. 3 outs per team per inning. A total of 3 to 5 innings are played per game.
